

IN THIS UPDATE

feat(header): brand logo + all-caps company name

What & why

Client request (per the header screenshot): put the **DCLtd logo** in the site header and render the **company name in capitals**.

UPDATE #51 progress item	FILES UPDATED 2 in this update	COMMITTS 1 changes bundled	QUALITY CHECKS In progress automated tests
---------------------------------------	---	---	---

What's included

- ✓ Header brand is now a **logo + wordmark lockup**: the white DCLtd SVG mark followed by **DIEYNEM CO. LIMITED.** (all-caps).
- ✓ Logo uses the existing static/img/logo-dcltd-white.svg (reads cleanly on the navy header) with explicit width/height → **no CLS**, and alt=""/aria-hidden so the adjacent text stays the link's only accessible name (no double announcement).
- ✓ Brand text steps down to text - lg on small screens so the lockup fits cleanly **down to 360px**.
- ✓ <title> and Open Graph/meta tags stay **title-case** for SEO/social — only the visible header wordmark is capitalised.
