What's included

Models (apps/projects, migration 0003)

- ✓ `Project.progress_percent` (0-100, validated) + `last_updated_label` — ongoing-only, blank for completed projects (one model covers both, per BS §6).
- ✓ `ProjectMilestone` (title / is_complete / date / order) and `ProjectUpdate` (date / note / image).
- ✓ Helpers: `is_ongoing`, `milestone_summary`, `display_progress` (explicit percent → milestone ratio → None, so the bar is omitted when there's nothing to show).

Dashboard (inline on the project editor)

- ✓ New **Ongoing progress** fieldset + **Milestones** and **Project updates** inline formsets, reusing the existing add-row/Alpine pattern and live image preview.
- ✓ Refactor: `ProjectImageFormSetMixin` → `ProjectInlineFormsetsMixin` (one mixin binds images + milestones + updates); shared `inlineFormset` JS helper with `imageFormset` kept as a backwards-compatible alias.

Public

- ✓ New `/ongoing-projects/` page — progress bars, milestone checklist, latest-updates feed, empty state.
- ✓ **Live status** block on ongoing case-study pages (hidden on completed projects).
- ✓ "Ongoing" added to header, mobile menu, and footer nav.
