What's included

Model (apps/media_center, migration 0002)

- ✓ **Download** — title / description / file / category / order / is_public, with a public() queryset. Category = company_profile / capability_statement / brochure. Helpers: extension (e.g. PDF) and human-readable size_display (e.g. 2.4 MB) for the public cards.

Public (/downloads/)

- ✓ DownloadsView groups public documents by category; each card shows file type + size and a download button. Empty state links to the contact page.

Dashboard

- ✓ Full **Download CRUD** (Editor + Administrator), reusing FilterableListMixin (search + category/visibility filters + HTMX + pagination); list/_table/form/confirm_delete templates; sidebar entry under Content.
